**Subject:** 2 Additional Questions

Dear Marlize:

Two additional questions that I forgot to ask you on the phone -

Have we received a copy of the informed consent that will be used for the study? There was only a placeholder in the protocol I have seen. If it has not been sent to us, could you please forward it for our review?

Also, the trial OTT that was performed recently - did this individual sign any sort of consent prior to the administration of the OTT? Please let me know.

Thanks and kind regards,  
Valerie
